About Artesano

Artesano is a small family business in England.

Their yarn comes from farms where the people earn a fair wage and the yarn is produced with the environment in mind.

They import the yarn from Manos del Uruguay, who, in 2009, has been officially accepted as a member of the "world fair trade organization".

For their own collection of yarn they work with cooperatives in Peru and Bolivia where they develop yarn under their own name "Artesano".

Their yarn is of very high quality, so a pleasure to knit with.

We offer the free patterns of Artesano on the tips and tricks page of www.knitandpurl.nl

One pdf with patterns in Artesano yarns and one with patterns in the Manos del Uruguay yarns.
