

Make your own buttons with plastic rings.

Use the blanket or festoon stitch to cover the ring with knitting yarn, make sure you pull the yarn to avoid gaps.

Finish the last stitch by pulling the yarn through the upper (outer ring) portion of the first festoon stitch towards the rear. At the rear (depending on the thread size) cross the yarn 2/3/4 times back and forth over the hole, cover these threads with the festoon stitch. Make a small knot and work away the yarn end.
